

Single Services Feedback Form

For the Sundays of July 20 & 27 and August 3 & 10 we held single services with a family focus, providing childcare only through four years of age. As we look ahead in planning for the 2009 ministry year, we would like feedback about the single services from our church family. Please help us by completing this survey:

1. Tell us about your and/or your family:

I/we attend first service

I/we attend second service

I am/we are a parent(s) with children age 5 – 5th grade

I am/we are a parent(s) with children 6th – 12th grade

2. Of the 4 single services, I/we attended:

1 service

2 services

3 services

all 4 services

I/we provided childcare so did not attend the single services

3. Please comment on 1 or 2 aspects of the single services that you experienced as most worshipful.

4. Do you have suggestions for additional ways to increase the “one church family” focus we seek to emphasize during these single services? (More children’s focus? More participation from our youth? Inclusion of senior adults in specific ways? Etc.)

5. Please comment on 1 or 2 aspects of the single services that you think need to be changed or improved.

6. There has been some preliminary discussion about having six weeks of single services rather than four. Would you be in favor of extending the single services to six weeks? Why or why not?
